REACH Declaration ABB PLC Products

As part of ABB's values, and in alignment with the Supplier Code of Conduct, we seek to work with companies who contribute to sustainable development and are ethically, socially, environmentally, and economically responsible.

ABB is responsible for ensuring that our products comply with legal requirements, such as RoHS and REACH. There are also other sets of environmental requirements not necessarily originating from legislation, but which are of great importance as ABB customers are demanding compliance with them. These include ship recycling and green building requirements.

The purpose is to avoid chemicals, materials and substances that

- may represent hazards to the environment, or
- the health of workers, customers, consumers and other stakeholders, or
- could negatively influence end-of-life properties.

ABB has contacted all suppliers to collect component and material information. This information includes, but is not limited to:

- Full Material Disclosure
- RoHS compliance certificate
- REACH SVHC compliance certificate
- Component lifecycle status

Object of the declaration

This declaration refers to all products manufactured by ABB AG – Center of Expertise PLC, Heidelberg, Germany, which are listed in Table 1 attached.

REACH SVHC-253 declaration

ABB Products that are object of this declaration do not contain any of the Substances of Very High Concern (SVHC) exceeding 0.1% weight by weight (w/w), except for some part types listed in Table 1 that may contain a Substance of Very High Concern (SVHC) above the threshold of 0.1% w/w. This threshold applies to each article of an object made up of more than one article, which were joined or assembled together (complex objects). "Once an article, always an article."

Under normal and foreseeable conditions, the products do not release harmful substances nor pose a risk to the customers.

Regulatory information

The REGULATION (EC) No 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 18 December 2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) entered into force 1 June 2007. It covers the manufacture, import (into the EU), and use of chemical substances (e.g. raw materials, powders) in preparations (e.g. oil, resin, paint), special preparations (metal alloys), and in articles (finished products).

REACH Article 33 requires any supplier of an article containing Substances of Very High Concern (SVHC) above the threshold of 0.1% w/w to provide the customer with sufficient information to allow safe use of the article. As a minimum, the name of that substance is communicated.

Article 33 does not impose any restrictions on the use of the products, nor is it a prohibition to use a substance.

Yours sincerely,

ppa. Oliver Mereien
Head of CoE PLC Products, ABB AG

i.V. Alexander Wachter
Head of Operations CoE PLC Products, ABB AG
